Saiiron Engineering Pvt Ltd

Engineering your dreams with our group

Saiiron is a leading Racking Systems / Storage systems manufacturer based at Ahmedabad in Gujarat State, India. The Company has its manufacturing unit located at Pune MIDC Chakan and Bhosari Pune. Saiiron has been into this field since 1997 and supplies one of the Premium Quality (Tailor made) Storage Systems to its customers. In order to achieve a world class standard in quality, we heavily invest into modern machineries and latest sophisticated technology.

Our Production team ensures the highest level of quality control with the latest CAD application software for maximum safety. Recognizing the needs for reliable, efficient and cost-effective racking systems, our main objective is always focused on providing the ultimate service and product to all our customers.

We constantly seek new and innovative design and technology to complement our present racking systems. Whether high-rise or multi-tier shelving or racking needs, our reputation as the market leader for material handling in India is well known, We understand the need to always be adaptable in today's global and business challenges.

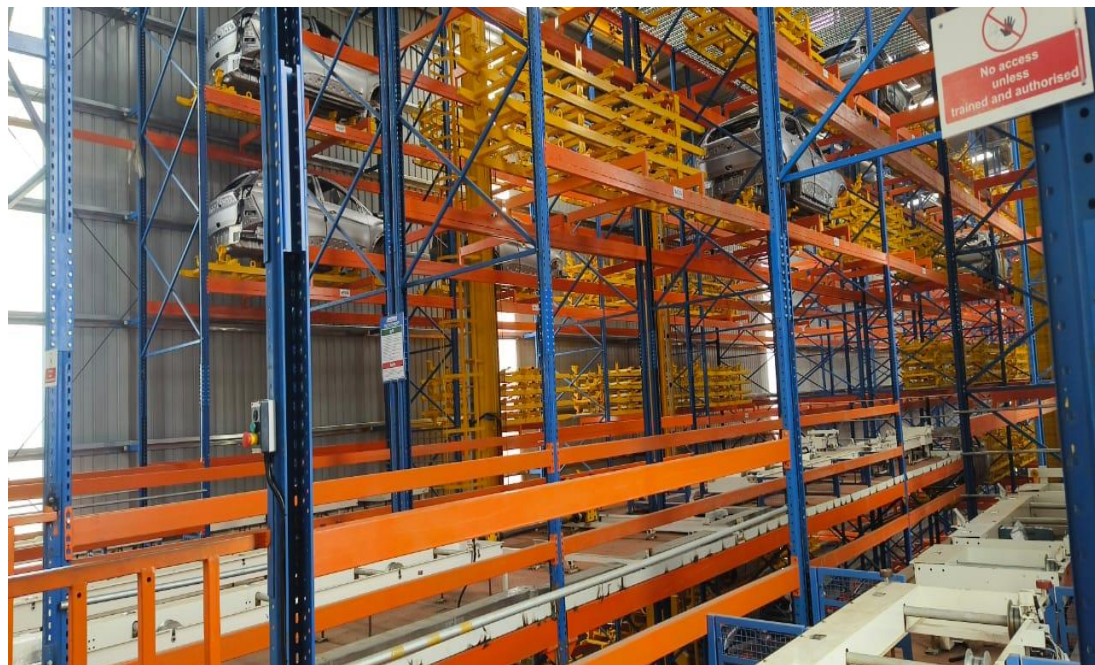

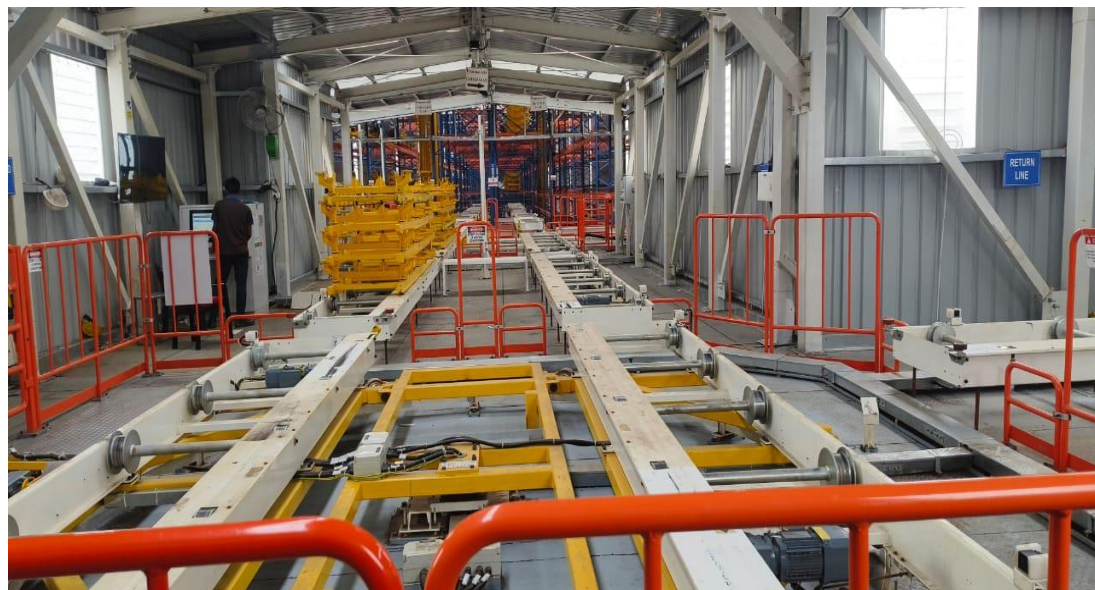

Towards better commitment to continue improvement and recognition to be high quality products for our customers, we have been officially accredited with ISO 9001:2015 certificate.

Metal Pallets

Cost-effective, highly durable metal pallets manufacturer

Pallets are a fundamental part of any warehouse or distribution center. Precision-engineered metal pallets are one of our most sought-after products. Compared to conventional wooden pallets or even lightweight plastic ones, metal pallets made out of high-grade steel are much more durable, safe and efficient.

The wooden pallets are not durable and on the other hand plastic ones can not take large loads over a long period of time. The high quality metal pallets by SILVER LINING Storage can do both of these effortlessly.
